

VozejkMap - SozilaMarie

Goals:

The Vozejkmap project aims to improve the lives of people with physical disabilities in sense of distributing relevant information about objects and removing barriers that may be restrictive during travel or day-to-day operations. Warning about the problem of accessibility of objects to people with physical limitations and awareness of the needs of this community. Establish cooperation with the state sphere and solve the issue of barrier-free status with representatives of regions and cities.

Core:

The core of the project is the VozejkMap platform, which also includes an interactive map that provides detailed information on barrier-free objects in the Czech Republic and abroad. This platform is a tool to solve the need for people with mobility disability on the barrier-free objects at the point of need. Apart from the interactive map, which is the source of information, Vozejkmap also serves as a social space where the users themselves can address the issue of barrier-free access.

Body:

- Solving the issue of barrier-free access
- Tool for orientation of a barrier / no-barrier environment
- Creating a community that shares experience with barrier / no-barrier-free objects
- Motivate people with mobility disability to travel and remove fear from an unknown environment
- Involvement of the wider public in the issue of barrier-free status from commercial and state structures
- Improve the lives of people with mobility disability and offer new / alternative options

Results:

- Every month at vozejkmap.cz searches more than 1,200 users.
- Every month our application will help 230 users find a barrier-free object in their area.
- More than 2,500 users have downloaded the application.
- Nearly 500 active users are involved in the content of the database and make up the content of the map.
- We have involved 5 regions in our project to update our information on barrier-free places in their region.
- We have been involved in the project with two main partners involved in improving the lives of people with mobility disabilities (Škoda Auto and Vodafone).
